

CAB No. 378 / 09.05.02 / 2018-19

March 11, 2019

The Chairman / Chief Executive Officer

Dear Sir/Madam,

**Workshop on Technology Issues in Urban Co-operative Banks(May 13-15, 2019)**

The College of Agricultural Banking (CAB) invites nominations for the Workshop on Technology Issues in Urban Co-operative Banks to be held in the College from **May 13-15, 2019**. One of the biggest beneficiaries of the technology intervention in the business processes is the banking sector. Many UCBs have either already implemented CBS or on the verge of migration to CBS. Undoubtedly this technology has enabled the banks to put in place multiple delivery channels and increase efficiency, scale up business and improve customer service. Now, the challenges before the UCBs are to create well informed and competent human resources to understand the technology trends in the banking to leverage the same for business purpose. In order to help the UCBs in meeting these challenges, the College has designed a workshop on Technology Issues in UCBs to leverage technology for business productivity.

**2. Programme objectives:**

- Enable participants to understand technical aspects of CBS and related issues.
- Create awareness about IT security and cyber security.
- Enable participants to understand role of BCP.
- Create awareness about latest technologies such as cloud computing, big data (in the context of banking activities), payment products and developments in payments and settlement systems.

**3. Who should attend:** The workshop will be especially useful for Officers from IT/Functional Departments/ Inspection and Audit of UCBs.

**4. Programme contents: I**

- Technology Issues in UCBs
- IT Governance framework.
- Technical aspects of CBS, Conducting audit in CBS environment
- Basics of information security, cyber security and prevention of frauds
- Developments in payments and settlement systems
- Latest technologies and payment products
- Business continuity management including management of data-centre
- Cloud computing, cloud solutions for UCBs
